AGE and SEX DISTRIBUTION in TANJAY CITY based from the Results of 2015 Census of Population

Total population reached 80,532 persons

As of August 1, 2015, Tanjay City posted a total population of 80,532 persons. Of the total population of this city, male accounted for 50.94 percent or 41,021 persons while females comprised 49.06 percent or 39,511 persons. These figures resulted in a sex ratio of 104 males for every 100 females. Younger age groups made up the larger portion of the population of the city. Persons aged 10 to 14 years (8,194) comprised the largest group of about 10.17 percent; closely followed by those in the age groups 15 to 19 years (7,790) of 9.67 percent; and 5 to 9 years (7,779) of 9.66 percent. Males outnumbered females in the age group 0 to 59 years while females were more than males in older age group 60 and over.

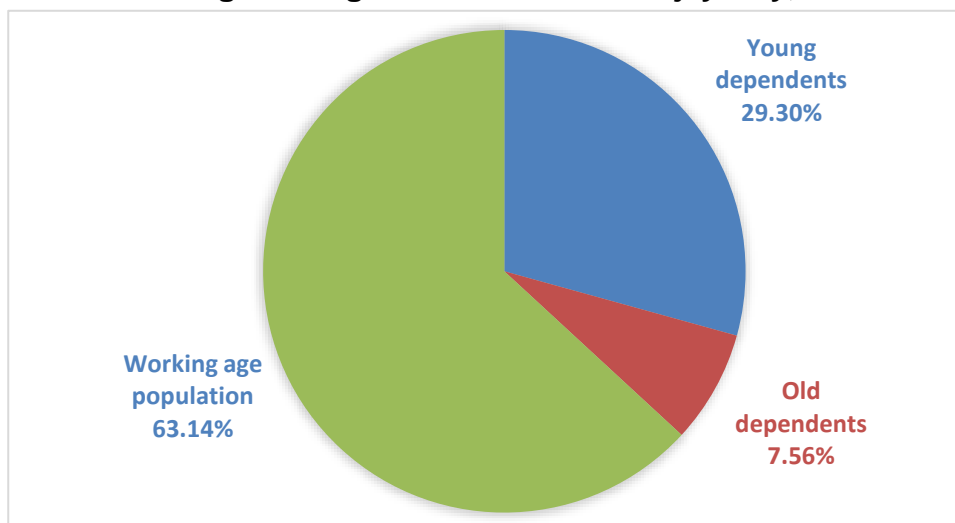

Figure 1 Age-Sex Pyramid of Total Population in Tanjay City, 2015.

Working age population is 63.14 percent

The young dependents (0 to 14 years) comprised 29.30 percent of the total population in Tanjay City while the old dependents (65 years and over) posted a share of 7.56 percent. The working age population (15 to 64 years) accounted for the remaining 63.14 percent or 50,847 persons.

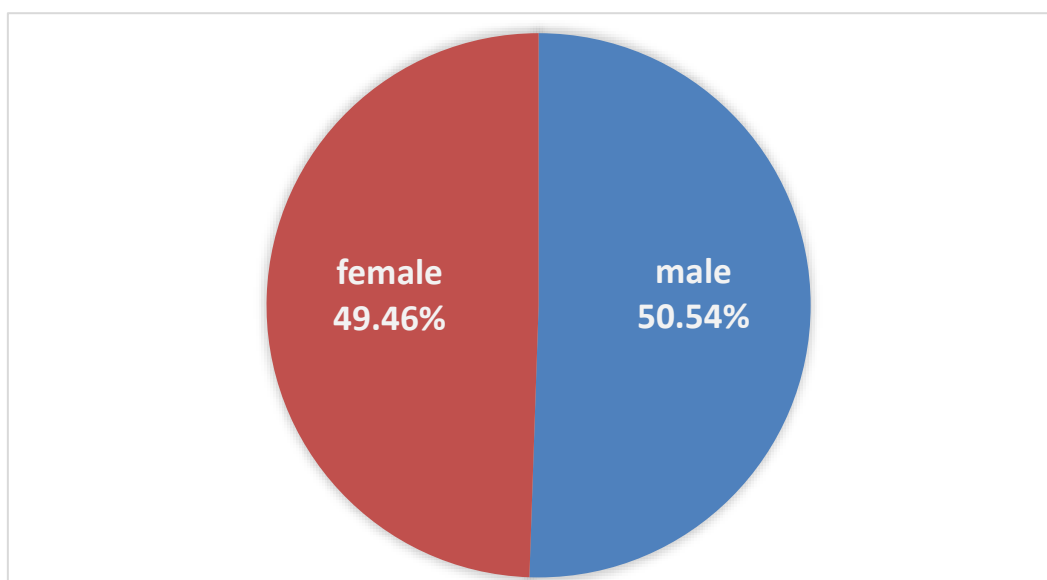

Figure 2 Age Distribution in Tanjay City, 2015

More than half of the total population were of voting age

The voting-age population (18 years and over) accounted for 64.63 percent of the total population in Tanjay City. There were more males 50.54 percent or 26,305 persons than females 49.46 percent or 25,743 persons among the voting-age population.

Figure 3 Voting-age Distribution by Sex in Tanjay City, 2015.

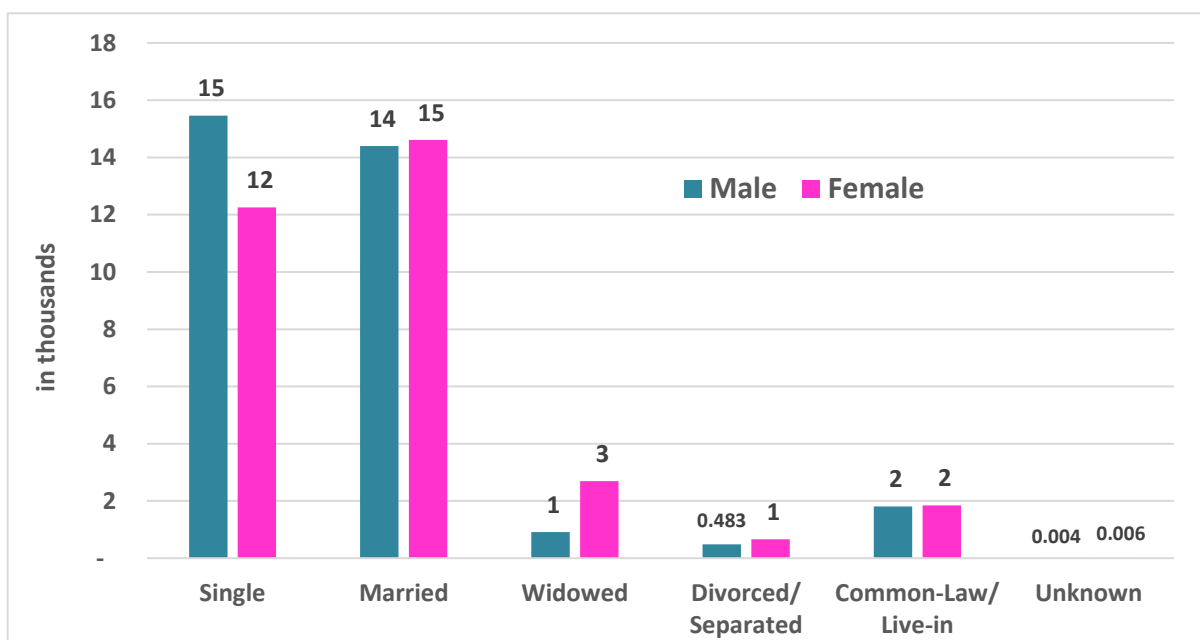

More single men than women

Of the 65,132 total population 10 years old and over in Tanjay City, 42.55 percent or 27,716 persons were never-married while 44.53 or 29,006 individuals were married. The rest of the household population was categorized as follows: Common-law/Live-in (5.60 percent), widowed (5.53 percent), divorced/separated (1.76 percent), and unknown marital status (0.02 percent).

Among the never-married persons, 55.79 percent or 15,464 were males while the remaining 44.21 percent or 12,252 were females. Females dominated the married (50.37 percent), widowed (74.76 percent), divorced/separated (57.93 percent), common-law/ (50.44 percent), and unknown marital status (60.00 percent) populace.

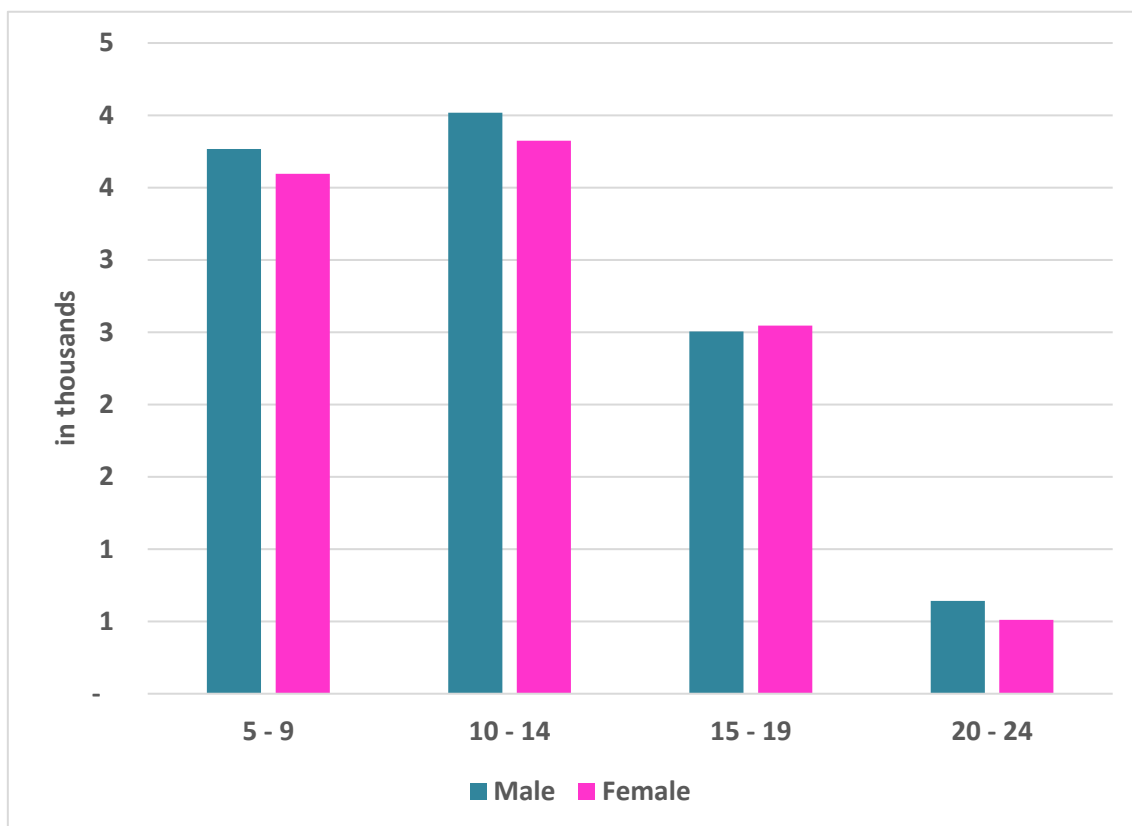

Figure 4 Total Population 10 Years Old and Over by Marital Status and Sex in Tanjay City, 2015.

More males are currently attending school

Of the 30,631 household population 5 to 24 years old in Tanjay City, more than two-thirds or about 69.89 percent were currently attending school. There were more males (51.07 percent) than females (48.93 percent) among those who were currently attending school in 2015. Consequently, there were more males than females among those age group 5-9 years old, 10-14 years old and 20-24 years old, with 51.16 percent, 51.24 percent, and 55.73 percent, respectively. Females dominated the age group 15-19 years old with 50.39 percent.

Figure 5 Household Population Five to Twenty Four Years Old Who Were Currently Attending School by Age Group and Sex in Tanjay City, 2015.

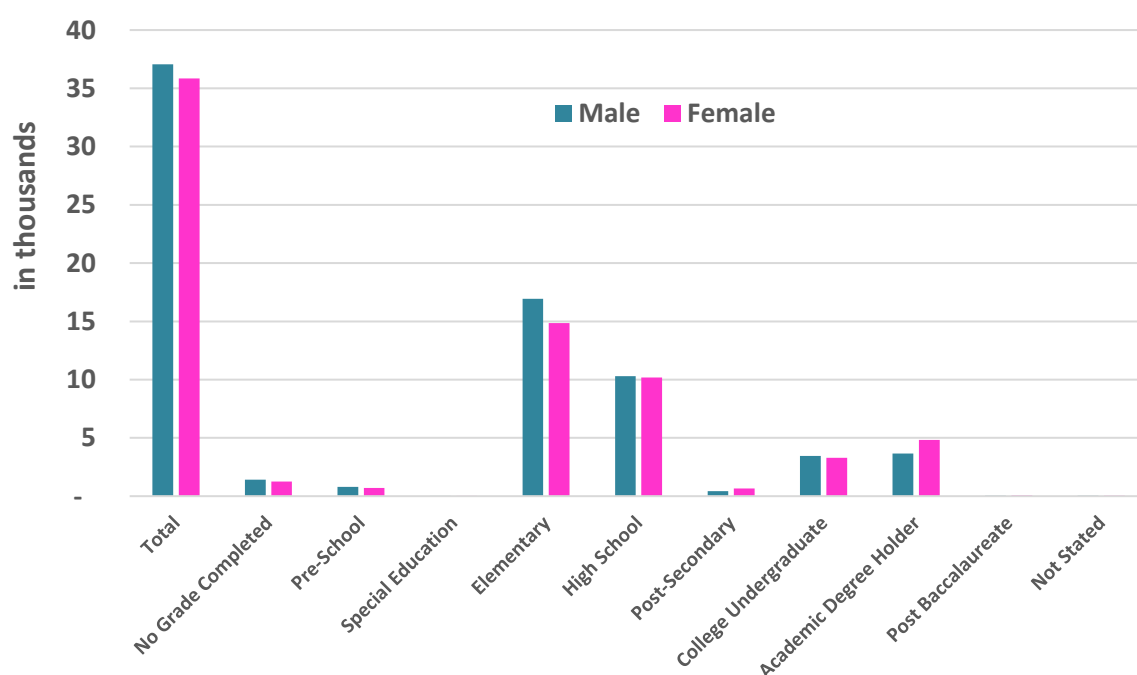

More than half of the total population had primary education

Of the total population five years old and over, less than half or 43.58 percent had attended or completed elementary education while 28.08 percent had reached high school. About 11.63 percent were academic degree holders. Those who attended or completed post-secondary were 1.50 percent while college undergraduate were 9.25 percent. Those who had not completed any grade made up 3.66 percent, of which 52.86 percent were males.

There were more males than females among those who attended or finished pre-school (53.18 percent), special education (64.71 percent), elementary (53.28 percent), high school (50.29 percent), and college undergraduate (51.06 percent). On the other hand, there were more females than males among those who attended post-secondary (60.26 percent), academic degree holder (56.86 percent), post baccalaureate courses (57.29 percent), and those individuals whose grade were not stated with (50.79 percent).
