## GOAT SITUATION REPORT in Central Visayas October-December 2021 Preliminary Result

**Date of Release:** 19 April 2022  
**Reference No.:** 2022-SR07-011

The total goat production of Central Visayas from October to December 2021 was estimated at 2,937 metric tons, liveweight. This was -4.3 percent lower than the previous year's same quarter production 3,069 metric tons, liveweight. (Figure 1,2 and Table 1)

## SPECIAL RELEASE

As of 01 January 2022, Central Visayas total goat inventory was estimated at 570,136 heads. This was 1.5 percent higher than 561,974 heads in the same period of 2021. This comprised of 563,657 heads or 98.1 percent for Backyard farm and 6,479 heads or 1.1 percent for Commercial farm. The region ranked 1st in terms of the level of inventory for the period. (Figure 4,6 and Table 2)

Figure 6. Total Goat Inventory by Region:  
as of 01 January 2022<sup>P</sup>

Source: Philippine Statistics Authority  
<sup>P</sup> - preliminary

In terms of inventory, Central Visayas posted the highest total goat population of 570,136 heads. This was followed by Western Visayas with 510,600 heads and Ilocos Region with 458,076 heads. These three regions accounted for 39.7 percent of the total goat inventory in the country. (Figure 6 and Table 2)

# SPECIAL RELEASE

## TECHNICAL NOTES

This Goat Situation Report presents the goat industry in terms of volume of production and inventory by farm type. The report is prepared to serve as a ready reference for PSA's various clients and stakeholders in the agriculture sector. It is released quarterly; that is, every February, May, August, and November.

### **Concepts and Definitions**

**Volume of production** refers to the volume of locally-raised goat disposed for slaughter including those which were shipped out to other regions/provinces for slaughter. This is expressed in metric tons, liveweight.

**Inventory** refers to the actual number of goat present in the farm as of a specific reference date.
