TECHNICAL NOTES

- The 2020 CPH was undertaken by the Philippine Statistics Authority in September 2020 pursuant to Republic Act No. 10625, also known as the Philippine Statistical Act of 2013, and Batas Pambansa (B.P.) Bilang (Blg.) 72, which further accorded the PSA the authority to conduct population censuses every ten (10) years beginning in 1980. The 2020 CPH is the country's 15th Census of Population and 7th Census of Housing since 1903.
- Information on the count of population were collected on its census reference time and date at 12:01 A.M. of May 1, 2020.
- His Excellency President Rodrigo R. Duterte declared as official for all purposes the population counts by province, city/municipality, and barangay, based on the 2020 CPH under Proclamation No. 1179, dated 06 July 2021. The population counts were based on census questionnaires accomplished by about 90,000 enumerators deployed during the nationwide census taking.
- The successful completion of the census-taking was made possible with the support of the local and national officials, government agencies, local government units, media, private agencies, and non-government organizations.

DEFINITION OF CENSUS TERMS AND CONCEPTS

▪ Household

A social unit consisting of a person living alone or a group of persons who sleep in the same housing unit and have a common arrangement in the preparation and consumption of food.

▪ Household Population

Comprises of persons who belong to a household.

▪ **Household Members**

In determining household membership, the basic criterion is the usual place of residence or the place where the person usually resides. This may be same or different from the place where he/she is at the time of the census.

▪ **Institutional Living Quarter**

Institutional living quarter (ILQ) is a structurally separate and independent place of abode intended for habitation by large groups of individuals. Usually has certain common facilities such as kitchen and dining room, toilet and bath, and lounging area that are shared by the occupants.

▪ **Institutional Population**

Comprises of persons who are living in institutional living quarters. They may have their own families or households elsewhere but at the time of the census, they are committed or confined in institutions, or they are live in institutional living quarters and are usually subject to a common authority or management, or bound by either a common public objective or a common personal interest
