PRESS RELEASE

Philippine Statistics Authority Negros Oriental Now Accepts Applications for Replacement of Lost and Damaged PhilIDs

Date of Release: 02 June 2023

Reference No.: 2023-PR46-004

As the Philippine Statistics Authority (PSA) continue with the registration for the Philippine Identification System (PhilSys) and issuance and delivery of printable e-PhilIDs, several registration centers receive reports of lost and damaged Philippine Identification (PhilID) cards. Being the primary implementing agency, the PSA has the duty to ensure that the PhilID cards are durable and in good condition. Hence, the PSA will issue a replacement for PhilIDs with damage and defective front-facing photographs upon request of the concerned PhilSys registrant. Moreover, a replacement PhilID will also be issued for lost and damaged PhilID cards due to natural calamities, upon submission of the necessary requirements.

In view of the foregoing, the front-facing photograph of the PhilID card is considered damaged or defective in the following instances:

- (a) the whole photo or part of it is peeled off;
- (b) the photo is not similar to the ghost image; and
- (c) the photo is washed out and the facial features are not recognizable.

Meanwhile, for lost and damaged PhilID cards due to natural calamities, a certification signed by the Punong Barangay, where the cardholder resides, shall be required. Furthermore, the damaged PhilID card must be surrendered upon application for investigation. Interested

Republic of the Philippines
Philippine Statistics Authority
Negros Oriental Provincial Office

PhilSys registrants may visit the nearest PhilSys registration center in their locality to file their request for replacement, free of charge.

For any inquiries and clarifications in relation to this announcement, you can contact PSA-Negros Oriental through this number, (035) 422-4372 or send us an email in this email address, psa07.negrosoriental.philsys@gmail.com. You can also check our official facebook page, [PSAPhilSysOfficial](#), for recent updates and advisories regarding PhilSys.
