

# SPECIAL RELEASE

## LIVESTOCK and POULTRY Situation Report 2<sup>nd</sup> Semester 2022

Date of Release: 27 MARCH 2023  
Reference Number: 2023-SR01-008

The total inventory of Livestock and Poultry in the province of Siquijor increased by 3.39 percent as of January 1, 2023 compared to the inventory of the same period last year from 733,329 heads to 735,576 heads this year. This figure was attributed to the increase in the livestock population. The inventory of Livestock in Siquijor province posted an increase of 3.39 percent as of January 1, 2023 compared to the inventory in the same period last year from 93,515 heads to 96,983 heads while the decrease in poultry population was attributed specifically to the slight decrease in native chicken from 612,578 last second semester of 2021 to 615,176 this year.

The highest contributor to the increase for livestock is swine with 8.66 percent and is followed by cattle with an increase of 0.09 percent. As of January 1, 2023, majority of the increase in inventory of cattle and swine were raised in backyard farms.

**Table 1. Livestock and Poultry Inventory by Animal Type in Siquijor, 2<sup>nd</sup> Semester 2021-2022**

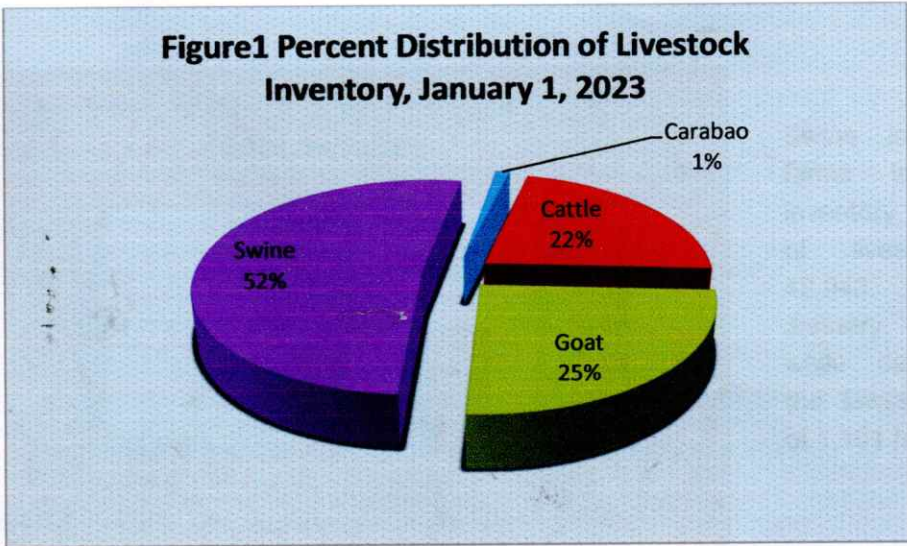

LIVESTOCK/POULTRY	INVENTORY		PERCENT CHANGE 2023/2022
	as of January 1, 2023	as of January 1, 2022	
<b>LIVESTOCK</b>	<b>96,983</b>	<b>93,515</b>	3.39
Carabao	1,101	1,121	-1.78
Cattle	21,312	21,291	0.09
Goat	24,327	25,141	-3.23
Swine	49,943	45,962	8.66
<b>POULTRY</b>	<b>638,893</b>	<b>639,814</b>	-0.14
Chicken	637,499	638,753	-0.20
Broiler	880	191	360.733
Layer	24,041	23,386	2.80
Native	612,578	615,176	-0.42
Duck	1,394	2,514	31.39
<b>TOTAL</b>	<b>735,576</b>	<b>733,329</b>	<b>0.31</b>

## TECHNICAL NOTES

The Livestock and Poultry Situation Report presents the performance situation in terms of inventory of livestock and poultry. Data for this special release were collected by the Philippine Statistics Authority (PSA) through the two (2) surveys namely: 1) The Backyard Livestock and Poultry Survey (BLPS) which is conducted quarterly which covers one (1) replicate sample of the Palay and Corn Production Survey (PCPS), and 2) The Commercial Livestock and Poultry Survey (CLPS).

Another survey that supplements the data requirements of the Livestock and Poultry sector is the Compilation of Data from Slaughterhouses and Poultry Dressing Farms (CDSPDP). This is done monthly and utilizes administrative data from Locally Registered Meat Establishments (LRMEs) in the province in coordination with the Provincial Veterinary Office (PVO) and Meat Inspectors (MIs).

### Definition of Terms

- **Production** – refers to the volume of indigenous (locally-raised) animals disposed for slaughter which includes animals exported or shipped-out for slaughter (in “head” and in “liveweight equivalent”)
- **Livestock** – farm animals kept or raised for consumption, work or leisure. In general, poultry is separated as a distinct group of farm animals. For purposes of census and surveys, livestock covers only those that are tended and raised by an operator.
- **Poultry** – a collective term for all domesticated avian for the purpose of food consumption, or the carcass of such avian dressed/processed for human consumption.
- **Animal Inventory** – (also Animal Population) – the number of domesticated animals in the head present in the farm at specific reference date.
