

PRESS RELEASE

PSA Central Visayas encourages National ID integration through National ID eVerify

Date of Release: 03 December 2024

Reference No.: 2024-PR07-025

The Philippine Statistics Authority Regional Statistical Services Office VII (PSA RSSO VII) is urging government agencies, financial institutions, schools, local government units (LGUs), and business companies to integrate with the National ID System through the National ID eVerify platform.

The National ID eVerify platform streamlines the integration with the National ID authentication services. These services offer secure biometrics authentication such as live facial recognition, fingerprint scans, and iris scans, enabling relying parties to securely verify the identities of their clients. Utilizing this user-friendly platform, organizations can be guided through the entire onboarding journey, from initial registration to final system integration.

Several government agencies and private institutions have already begun the onboarding process, demonstrating the growing recognition of the benefits associated with the National ID System integration. This includes enhanced security through biometric authentication, which minimizes the risk of fraud. Additionally, streamlined verification processes improve efficiency and provide a faster, more convenient experience for customers.

PSA Central Visayas encourages all interested organizations to visit the National ID eVerify website at <https://everify.gov.ph> and register as a relying party. The registration process is simple and can be completed in just a few clicks. Detailed instructions and downloadable requirements are also readily available for reference.

To learn more about the National ID eVerify platform and the onboarding process, or to schedule an orientation session for your organization, please contact PSA RSSO VII at telephone number (032) 412-6794 or email address rso07@psa.gov.ph.
